

Shard

55' Wide Beam Cruiser Stern

£195,000

'Shard', as you might imagine, is named after the iconic London building, and inspired by the bright, airy and light-filled structure, the owner commissioned the vessel as a reflection of the architectural masterpiece. The bespoke build was undertaken and project managed by IBTC (International Boat Building College) in Lowestoft using their most experienced and qualified shipwrights and the result is a simply stunning, modern, luxury, floating penthouse. Designed as a boat for life, the attention to detail is striking with design features that catch the eye at every turn, from the cityscape engraved glass screen to the huge spring radiator in the bathroom and the two metre port side sliding hatch to mention just a few. Seeing is believing with 'Shard', so the only way to fully appreciate the unique style and quality of this vessel is to make an appointment to view! We are available 7 days a week for viewings by prior appointment only.

BSC	08/2024	Cabin Headroom	6'5" (1.95m)
Builder	IBTC, Lowestoft	Hull Material	Steel plate (12/6/5/mm)
Model	55' Wide Beam Cruiser Stern	Hull Type	Flat
Year	2017	Keel Type	Other
