

Summer Dream

Fairline Carrera 24

£14,500

'Summer Dream' is a clean and tidy example of the Bernard Olesinski designed Carrera, which comfortably sleeps four in the spacious cabin with the option of an extra double berth using the cockpit sunbed. The single Volvo Penta petrol engine is economical at river cruising speeds whilst having sufficient power for top speeds of around 20 knots.

A lovely entry level boat that has clearly been cared for by present and past owners.

Available for viewing 7 days a week by appointment please.
